17H00 => 17h20	CONF 7	CONF 7	CONF 7	

RODIN4D
www.rodin4d.com

Rodin4D is a CAD/CAM solution for orthopaedics which makes it possible to conceive and to manufacture orthopedic equipment: body jackets and external prosthesis and orthosis.
Based in France, near Bordeaux, Rodin4D is leader in Europe and has distributors worldwide.
In continuous search for innovation, Rodin4D offers to its customers evolutionary products and uses technologies allowing a commercial relationship and a technical support of high quality.
