7th edition of the Rodin4D User Days

8 & 9

June
2023

CITÉ MONDIALE IN BORDEAUX

MEETING EXPERTISE SHARING

Ladies and Gentlemen,

The 7th edition of the Rodin4D Users' Days will soon take place! On June 8 and 9, 2023, an event will be held at the Cité Mondiale in Bordeaux, featuring some twenty conferences presented by our customers and our employees who have come especially for the occasion.

This meeting has become the must-attend event for CAD/CAM experts in orthopedics, a unique event of its kind on the French territory. More and more popular with our customers, we expect no less than 250 participants for this 7th edition.
A special year for Rodin4D which celebrates its 20th anniversary!

The conferences will be based on major themes such as 3D printing, the next product launches or the evolution of our technological research. As a CAD/CAM partner, we will share our expertise and advice on the use of our solutions. All the conferences will be translated into 4 languages simultaneously and will allow us to welcome as many people as possible!

Come and celebrate with us the 20th anniversary of Rodin4D
